

Spring Term
2019

Year 6 Learning Journey

P.E.:

Our indoor PE lesson this term will be gymnastics where children will develop and explore different ways to move across and along different equipment, including rolls and jumps. We will then link these movements together to form sequences.

Our games lessons this term will focus on ball handling skills, as we refine our throwing and catching skills and apply these to different contexts, including dodgeball, basketball and netball.

Maths:

This term we begin by looking at decimals, percentages and algebra before moving on to geometry and ratio.

During our work on decimals, we will recap our understanding of numbers with up to 3 decimal places and apply this knowledge to multiplying and dividing.

As we move onto percentages, we will start by looking at converting fractions to percentages and equivalent fractions, decimals and percentages. We will then learn to calculate percentages of an amount.

In our work on algebra, we will start by looking at forming expressions by using function machines. We will then apply this to abstract algebraic equations.

During our geometry work, we will learn how to calculate the area and volume of a different shapes.

As we move onto ratio, we learn how to use ratio language, how to calculate ratio and all about scale

Spelling, Punctuation and Grammar:

In our daily spelling lessons, we will be looking at how the same sound can be formed from different groups of letters. For example, the *sh* sound can be spelt *ti*, *ci*, *si* or *ssi*. We will also look at silent letters and continue to learn words from the national curriculum.

During our punctuation and grammar lessons, we will be recapping our work on modal verbs and word classes, as well as synonyms and antonyms. We will also be looking at formal writing and the subjunctive form.

Music

This term, we will be linking our dance work in P.E. from last term as we create our own street dance performance with instrumental accompaniments. We will then be learning about music from other cultures as complete a musical performance about the effects of the slave trade on a West African village.

PSHE:

This year we are continuing to learn about how we can be good friend to each other and manage our own emotions through our weekly sunshine circles. We will also learn about how to respect and tolerate those who hold different beliefs to us.

RE:

In RE we are learning about Hinduism. This will involve learning about daily life, places of worship and religious occasions.
