

# Big Question: How do we use our senses?

## Key Vocabulary:

**Hygiene:** Keeping clean to stay healthy and prevent disease.

**Senses:** Any of the five ways to understand the world around us.

**Germs:** Tiny living things that cause disease.

**Disease:** Sickness

## New knowledge that will help me answer the big question:

- Handwashing and good hygiene stops germs spreading.
- Handwashing and good hygiene help us keep healthy

## New knowledge that will help me answer the big question:

- We have five senses:

**5 Senses**

- SMELL:** We use our **nose** to smell things! (Illustration: A girl smelling a flower.)
- TOUCH:** We use our **hands** to touch things! (Illustration: A boy touching a cat.)
- TASTE:** We use our **tongue** to taste things! (Illustration: A girl eating a chocolate bar.)
- SIGHT:** We use our **eyes** to see things! (Illustration: A boy looking at something.)
- HEARING:** We use our **ears** to hear things! (Illustration: A boy listening.)

## New knowledge that will help me answer the big question:

- The body parts are the head, arms, legs, nose, eyes, ears, mouth, hands and feet.

As a scientist, the essential knowledge I need to answer the big question is:	Date
Handwashing and good hygiene are important parts of a healthy lifestyle and prevent the spread of germs.	
Simple equipment is used to take measurements and observations. Examples include metre sticks and measuring tapes.	
The body parts are the head, arms, legs, nose, eyes, ears, mouth, hands and feet.	
The five senses are hearing, sight, smell, taste and touch.	
Ears are used for hearing, eyes are used to see, the nose is used to smell, the tongue is used to taste and skin gives the sense of touch.
