Coral the Fish environmental Project

For the month of May 'Coral the Fish' will be living at our school.

She will be situated on the main playground near the KS1 hall and we need help to fill her with crisp packets! These crisp packets will then be made into blankets for the homeless.

Every day, our natural environment is negatively affected by decisions that we make. It's important for children to understand that, whilst we are responsible for many of the issues that our planet is

currently facing, we can all work together to make positive changes to the Earth through determination and action

Can we fill her?

We are asking for parents to start collecting crisp packets and keep them in a safe place until May. Alternatively, we have a collection bin in the main entrance under the television screen. All we ask is that they are empty and clean.

As part of Trust work on sustainability, Woodnewton will also have a Coral Fish and Priors Hall will have a giraffe, which will need filling with plastic and metal bottle lids, so please start to collect these as well (please ensure they are clean).

Many thanks,

Mrs James and the Youth Parliament team
